

FIRECHIEF FLAMEZORB

Section 1. Identification of substances/preparation and company

1.1 Product identifier

Product name: FLAMEZORB

Product Code: 115-1003 (FZB1)

1.2 Details of the supplier of the safety data sheet

Company name: Firechief Global
3 Lands End Way
OAKHAM Rutland
LE15 6RB

Emails address: sales@firechiefglobal.com

1.3 Emergency telephone number

Emergency tel: +44 (0)330 999 0019 (office hours 08:00 - 17:00)

Section 2. Composition/information on ingredients

This preparation consists of kiln dried softwood sawdust to which ammonium sulphate has been added.

The level of irritant ingredients present within these compounds is below that level necessary to classify any preparation as irritant under REACH regulations.

Section 3. Hazard identification

The products are not classified as hazardous per REACH regulations.

Section 4. First aid measures

Skin contact: Wash skin with water

Eye contact: Irrigate eye thoroughly with clean water or eye wash solution. Seek medical advice

Ingestion: Wash out mouth with water, do not induce vomiting. Seek medical advice.

Section 5. Fire fighting measures

Not easily combustible: Suitable extinguishing agents: water spray, extinguishing powder, or CO2.

However as this product is used as an industrial absorbent care must be exercised if the type of liquid that it absorbs is of a flammable nature. The contaminated absorbent will not be less flammable than the liquid it absorbs.

Section 6. Accidental release measures

Sweep up and place into suitable container, then dispose of in normal collection system. As per Section 13.

Section 7. Handling and storage

Handling: Wear appropriate protective clothing; avoid contact with skin and eyes.

Good industrial house keeping routines should be adhered to once the absorbent has become contaminated.

Also care should be taken in the use of this product in absorbing spillage from two or more incompatible materials.

Storage – Store the bags of compound laid flat in a cool location.

Section 8. Exposure control/personnel protection

No exposure limits have been established for substances present in these products.

Personnel Protection

Hand Protection:	The wearing of suitable protection gloves
Eye Protection:	The use of safety spectacles/goggles
Skin Protection:	Protective overalls and safety shoes/boots recommended
Respiratory Protection:	None required

Section 9. Physical and chemical properties

Appearance: Granular

Colour: Red

Odour: None

Melting Point: N/A

Boiling Point: N/A

Specific Gravity: Not determined

Section 10. Stability and reactivity

Thermal decomposition/conditions to be avoided – No decomposition if used according to recommended storage procedure.

Dangerous Reactions – No dangerous reaction known

Dangerous products of composition – No dangerous compositions known

Section 11. Toxicological information

Skin contact:	May cause some irritation to the skin after prolonged contact
Eye contact:	Causes irritation
Long-term exposure:	No known hazards are associated with the use of this compound under conditions of good industrial hygiene.

Section 12. Ecological information

Compounds present no ecological hazards when used according to usage instructions.

Section 13. Disposal considerations

Dispose of in accordance with Local Authority regulations
Particular care should be taken when material absorbed is of a hazardous nature.

Section 14. Transport information

FIRECHIEF FLAMEZORB

Issue date: V1 28/9/21
Page: 3

Not classified as hazardous for transportation

Section 15. Regulatory information

Not classified under REACH Regulations

Section 16. Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product feature and shall not establish a legally valid contractual relationship.
