

## FIRECHIEF EMERGENCY GAS HORN

### 1. Once opened does it need to be used quickly?

No, you can use it as and when needed, the valve on the can is airtight.

### 2. Is there an expiry date?

The product is guaranteed for two years from the manufacturing date, however if the product is correctly stored it could last 4-5 years.

### 3. Roughly how long can the horn discharge for / how many uses can be done before it needs refilling?

The horn will achieve a min average qty of 190 +/- 5% blasts. The tests are performed using a machine that presses the horn for a second ( +/-10% ) with a pause for a minute between one sounding and the next. The sound level is always higher than 112 decibels. Tests are carried out at a temperature of 20 °c.

See product sheet for more details.
