Model: **MDM1000W**
Code: **114-1152**

MEDICHIEF 1 LITRE MANUAL SOAP DISPENSER

+MEDICHIEF™
making the world a safer place

Robust wall mounted dispenser to suit multiple applications.

This sleek wall-mounted soap dispenser is designed to fit in to any environment and provide a robust, tamper-proof solution for hand cleaning. Constructed from rigid ABS plastic, it is designed for repetitive use.

The dispenser has a manual 'push button' operation, with a dosage volume of 1.1ml, ensuring that the use of soap is efficient and cost effective.

Thanks to its unique anti-tamper design, the dispenser can easily be refilled and maintained. The container is mounted and secured in place beneath a key-locked cover that secures to the wall-mounting bracket.

Cleaning and maintenance is made easy with the patented 'Simple-Clean' system. With instructions provided, the cleaning process for this dispenser is effective and efficient, maximising the product life and reducing maintenance time.

The dispenser also has a 'QuickView' window to help speed up maintenance. The level of the soap in the storage container can be quickly determined and refilled if needed, saving wasted time opening the dispenser to check.
