# FOAMCLEANSE™ HAND SANITISING FOAM

**MEDICHIEF®**  
making the world a safer place

Unlike other foams available, this skin-kind hand sanitising foam contains 70% alcohol. The unique blend of pure ethanol, powerful biocides and skin-protecting aloe vera extract ensures that this is the hand sanitiser of choice for users in all areas.

When used with the Medichief Foaming Dispenser, it delivers instant foam to your hand, making it easy to apply enough for full hand coverage and keep hands wet for 20-30 seconds, meeting World Health Organisation recommendations. The instant foaming delivery system results in an easy-to-use sanitiser that avoids the dripping and splashing often associated with gels and rubs.

Conforming to rigorous European standards for bactericidal characteristics, as well as dermatologically tested, Medichief FoamCleanse™ Alcohol Hand Sanitising Foam can be trusted to protect you while caring for your hands every single day.
