# FOAMCLEANSE™ ZERO ALCOHOL-FREE HAND SANITISING FOAM

**MEDICHIEF®**  
making the world a safer place

Effective hand sanitising without alcohol is made easy with the FoamCleanse Zero Hand Sanitising Foam. Certified to conform to the requirements of European standards for combating viruses, bacteria and fungus, this foam has been developed for use in childcare or with vulnerable adults and other environments when alcohol-based solutions are not preferred.

Removing the skin-drying tendency of alcohol sanitisers, this foam also includes natural plant extracts to support healing and hydration of tired hands. Aloe Vera has long been recognised as having unique healing properties which are fully harnessed in this formulation.

Easy to use as a bulk refill with the Medichief Foaming Dispenser range or alternatively as a 'on the move' solution with a choice of 500ml or 100ml dispensers, FoamCleanse Zero offers all round protection.
